NIHMS GLOSSARY

Contract An award instrument establishing a binding legal procurement relationship between NIH and a recipient obligating the latter to furnish a product or service defined in detail by NIH and binding the Institute to pay for it.

Cooperative Agreement A support mechanism used when there will be substantial Federal scientific or programmatic involvement. Substantial involvement means that, after award, scientific or program staff will assist, guide, coordinate, or participate in project activities.

Embargo Time Period How long after publication an article will be made available in PMC as specified by the publisher; 12 months is the maximum embargo period as per NIH policy.

Extramural Research Research supported by NIH through a grant, contract, cooperative agreement, or other funding mechanism to an organization external to NIH.

Intramural Research Research conducted in government laboratories headed by NIH-employed scientists.

Final Manuscript Copy The Investigator's final manuscript of a peer-reviewed article accepted for journal publication, including all modifications from the peer review process.

Final Published Article The journal's authoritative copy of the article, including all modifications from the publishing peer review process, copyediting and stylistic edits, and formatting changes.

Grant Financial assistance mechanism providing money, property, or both to an eligible entity to carry out an approved project or activity. A grant is used whenever the NIH Institute or Center anticipates no substantial programmatic involvement with the recipient during performance of the financially assisted activities.

NIHMS ID The reference number assigned to a manuscript once it has been submitted to the NIHMS.

PubMed A service of the National Library of Medicine that includes over 17 million citations from MEDLINE and other life science journals for biomedical articles. Includes links to full text articles. (see: http://www.pubmed.gov)
PubMed Central (PMC) The NIH’s free digital archive of full-text, peer-reviewed biomedical & life sciences journal articles. Its content is publicly accessible and integrated with other databases. (see: http://www.pubmedcentral.nih.gov/)

PMCID The PubMed Central reference number. Must be included when citing an article in NIH applications, proposals, and progress reports that falls under the Policy, and was authored or co-authored by you or arose from your NIH award.
