Study since graduation

Training School Administration – Teachers College, New York City, Summer Session – 1928

Scope and Content

These papers relate to the nursing career of Marion Stanley Doane and the many years she spent abroad while nursing. There are letters regarding her travels, the diary from an early trip to Paris, a newsletter in Czechoslovakian created by the Czech soldiers in Doane's care in 1913, and memorabilia gathered during her life.

Of great import are the photo albums that Doane kept. They contain informal shots of the people of Haiti, France, Japan, Hawaii, and Turkey and a great many photographs of WWI trenches, the American Ambulance Hospital and the front, c. 1917. See the attached descriptions for more detailed information.
