PROVENANCE:

The collection was given to the archive by Dr. Farrington Daniels Jr., Chief of the Dermatology Division. A collection of reprints was donated by Alan Van Poznak on 8/16/1980.

ADMINISTRATIVE/BIOGRAPHICAL NOTE:

SCOPE AND CONTENT NOTE:

This collection provides a glimpse of Dr. Arthur Grace's work on tropical diseases. The collection has been organized into seven series: Correspondence (1931-1966), Manuscripts (1933-1969), Photographs (1934-1964), Illustrations (1936-1939), Analysis of Prints, Patient Files (1937-1970), and Case Studies Index (1945-1948).

Series I: Correspondence, 1931-1966) (Box 1)

This series, arranged alphabetically, includes correspondence to professionals in the field of tropical medicine. It also includes personal correspondence.

Series II: Manuscripts, 1933-1969 (Box 1-3)

This series, arranged alphabetically, includes research notes and papers on Pemphigus, a sometimes fatal tropical disease and other diseases.

Series III: Photographs, 1932-1939 (Box 3)

This series, arranged alphabetically, contains photographs of various stages of pemphigus.

Series IV: Illustrations, 1953-1966 (Box 3)

This series, arranged alphabetically, consist of illustrations of pemphigus and other diseases.

Series V: Analysis of Prints, PPLO Manifestation, (Box 3)

This series, arranged alphabetically, includes an index of Pleuropneumonia-Like Organisms and an analysis of conditions.

Series VI: Patient Files, 1937-1970 (Box 4)

This series, arranged alphabetically, contains patient records and medical conditions.

Series VII: Case Study Index, 1945-1948 (Box 5)

This series, arranged alphabetically, consist of an index of experiments conducted.

ACCESS RESTRICTIONS:

Access to some of the records in these series are restricted by the federal law HIPAA. Access to patient file series, photographs, illustrations, analysis of prints, and case study index is restricted by HIPAA. Please contact archivist.
