ADMINISTRATIVE/BIOGRAPHICAL NOTE:

Herbert Conway was born in 1904 in Fort Wayne, Indiana. He earned BS, MD, and MS degrees from University of Cincinnati. In 1932, he came as a resident with George Heuer (chairman/chief of Surgery) to the New York Hospital-Cornell Medical Center. After his residency in 1936, he established the Section of Plastic Surgery (later Division of Plastic and Reconstructive Surgery) at the medical center and served as its chief until his death in 1969. During World War II, he served in the South Pacific with the Ninth General Hospital and was the plastic surgeon consultant for the entire area. His resident program at the medical center trained many other prominent plastic surgeons. In addition, to his work at the medical center, he was a consultant for the VA Hospital in the Bronx.

Dr. Conway was recognized as a leading international plastic surgeon. He wrote extensively on his plastic surgery research and clinical work and was member of several professional organizations. In addition, patients from around the world sought him out for his expertise in plastic surgery.

SCOPE AND CONTENT NOTE:

The Herbert Conway papers provides an excellent overview of Dr. Conway's career as a prominent plastic surgeon. However, there is very little about Dr. Conway as a person. The papers are divided up into five series: Correspondence (1928-1970), Financial Records (1953-1969), Trips (1947-1969), Speeches, Reprints, and Manuscripts (1926-1970), and Miscellaneous (1948-1968).

CONDITIONS GOVERNING ACCESS:

Some of the papers are protected by the federal law, HIPAA Privacy Rule, which restricts access to patient health information found in medical records or other documents. These folders have been highlighted in the finding aid with red. These folders cannot be viewed without permission from the medical center's IRB Review Board. Please contact the archives.

PROCESSING NOTE:

Some papers that were discarded included images of patients, duplicate materials, and decaying acetate negatives.

BOX AND FOLDER LIST:
Series I: Correspondence, 1928-1970

This series, arranged alphabetically, contains correspondences with colleagues regarding professional meetings, research, and publications on plastic surgery. In addition, the series includes patient correspondence of both former patients and new patients seeking his help.
