Finding Aid To

THE DAVID BECKER, MD (1923-2010) PAPERS

Dates of Papers: 1955-2006

260 Linear Inches (18 Boxes)

Finding Aid Prepared By: Elizabeth Shepard Assistant Archivist April 2010

© 2010 Medical Center Archives of NewYork-Presbyterian/Weill Cornell

PROVENANCE:

David Becker, MD donated his papers to the archives in 1980, 1995-1996, 2002, and 2009.

ADMINISTRATIVE/BIOGRAPHICAL NOTE:

Dr. David Becker was born ca. 1923. He earned an A. B. in 1943 and a M.A. in Psychology in 1944 from Columbia University. He received his MD degree from New York University Bellevue College of Medicine in 1948. After graduation, he received further training at Sinai Hospital of Baltimore (1948-1949), Maimonides Hospital of Brooklyn (1949-1950), Memorial Hospital (1950-1952), and New York Hospital (1952-1955). He was the chief of the Radioisotope Laboratory at Brooke Army Medical Center in Forth Worth, TX from 1952-1954. In 1955, he was an instructor of medicine and radiology and assistant radiologist at the New York Hospital-Cornell Medical Center. At the same time, he established the Radioisotope Laboratory, which later became the Division of Nuclear Medicine. He rose in the ranks to attending radiologist in 1971, attending physician in 1975, professor of radiology in 1972 and professor of medicine in 1975. He retired in 1995 from the director of the Nuclear Medicine Division but continued to practice at the medical center until his death in January 2010.

Dr. Becker was a pioneer in the use of radioactive isotopes for the diagnosis and treatment of thyroid disease. He was an expert on thyrotoxicosis and thyroid cancer. He was involved in numerous committees and organizations related to thyroid disease and the treatment of radiation exposure after nuclear accidents. He was president of the American Thyroid Association from 1982-1983. After the Chernobyl, Ukraine accident in April 1986, he led the American team to study the effects of radiation exposure from this accident on people living in the area. He was especially interested in studying the increase in thyroid disease in children in the Belarus/Ukraine area. He received the Distinguished Service Medal from American Thyroid Association in 1989, Berson Yalow Award from the Society of Nuclear Medicine in 1990, and in 1996 a White House Citation for Humanitarian Efforts for his studies of childhood thyroid cancer following the Chernobyl accident.

SCOPE AND CONTENT NOTE:

David Becker, MD papers provided a good overview of his professional activities as the director of the Nuclear Medicine Division and his expertise in thyroid disease and the effects of radiation exposure of nuclear accidents such as Chernobyl. His papers are divided into eleven series: Correspondence Series I (1984-1991), Correspondence Series II (1968-1988), Correspondence Series III (1956-1996), Correspondence, Personnel (1955-1983), Nuclear Medicine Administration (1955-1992), Nuclear Medicine Renovations (1956-1988), Grants and Financial Records (1955-1987),

Nuclear Medicine Research (1955-1988), Chernobyl (1972-2006), Committees (1956-1994), and Speeches and Papers (1958-2003).

Series I: Correspondence, 1984-1991 (Box 1)

This series, arranged chronologically, contains general correspondence with colleagues and friends.

Series II: Correspondence, 1968-1988 (Boxes 2-3)

This series, arranged chronologically, consists of correspondence divided into the following categories: Cornell, general, interdepartmental, and personal.

Series III: Correspondence, 1956-1996 (Boxes 3-5)

This series, arranged alphabetically, comprises of correspondence with colleagues and friends.

Series IV: Correspondence, Personnel, 1955-1983 (Box 5)

This series, arranged alphabetically, contains correspondence with other members of the Division of Nuclear Medicine, mostly former fellows or residents.

Series V: Nuclear Medicine Administration, 1955-1992 (Boxes 5-7)

This series, arranged alphabetically, is composed of files related to the administration of the Division of Nuclear Medicine.

Series VI: Nuclear Medicine Renovations, 1956-1988 (Boxes 7-8)

This series contains correspondence, architectural plans, and files related to the renovation of the Nuclear Medicine Division in the new C. V. Starr building. The Nuclear Medicine Plans files are organized chronologically.

Series VII: Grants and Financial Records, 1955-1987 (Box 8)

This series, arranged alphabetically, comprises of miscellaneous financial files for the Nuclear Medicine Division.

Series VIII: Nuclear Medicine Research, 1955-1988 (Boxes 8-10)

This series, arranged alphabetically, consists of research files on nuclear medicine.

Series IX: Chernobyl, 1972-2006 (Boxes 10-14)

This series, arranged alphabetically, contains four subdivisions: Becker's Correspondence, Becker's Committees, Becker's Speeches and Papers, and Subject Files. The Becker's Committees and Speeches and Papers subseries include files on his various committees and research projects related to the Chernobyl accident. His major activity was leading the US team under the Joint Coordinating Committee for Civilian Nuclear Reactor Safety, which study the effects of the Chernobyl disaster on the people living in the area. He was also active in the WHO project to study thyroid cancer in children in Belarus and Ukraine. The Subject Files are comprised of general files on the Chernobyl and other nuclear accidents.

Series X: Committees, 1956-1994 (Boxes 14-17)

This series, arranged alphabetically is composed of files related to the Dr. Becker's various committees and meetings. Some of the organizations include the American Thyroid Association, FDA, Society of Nuclear Medicine, National Cancer Institute, New York Hospital, Radioisotope Committee, and the Mayor Technical Advisory Committee.

Series XI: Speeches and Papers, 1958-2003 (Boxes 17-18)

This series, arranged alphabetically, contains various speeches, manuscript drafts, and reprints by Dr. Becker.

ACCESS RESTRICTIONS:

The Personnel Correspondence series is restricted and confidential. There are few files that contained patient files protected under HIPAA.
