**Finding Aid Prepared By:
Elizabeth Shepard
Assistant Archivist**

NOTE OF PROVENANCE:

Dr. Fritz Fuchs donated his records to the New York Weill Cornell Medical Center Archives on June 20, 1989.

BIOGRAPHICAL NOTE:

Dr. Fuchs was born in Frederiksberg, Denmark on November 27, 1918. He received a medical degree from University of Copenhagen and Karolinska Institute, Stockholm Sweden in 1944. After working in various hospitals in Demark and Sweden, Dr. Fuchs immigrated to the United States in 1965 when he became the Obstetrician and Gynecologist in Chief at the New York Hospital and the first Given Foundation Professor of Obstetrics and Gynecology and the Chairman of the Obstetrics and Gynecology Department at Cornell University Medical College. He married Anna-Riitta Olsson, a chemist and reproduction physiologist from Finland in 1948. In 1977, he became the first Percy Uris Professor of Reproductive Biology. In 1978, he retired from his chair of the Obstetrics and Gynecology Department at Cornell.

He was an internationally known obstetrician and gynecologist. In 1960, in Demark, he worked with Povl Riis to perform the first amniocentesis for diagnosing a genetic disorder in a fetus. He, his wife, and other Danish collaborators also discovered the amniotic fluid could be used to determine the sex and blood type of the fetus. He continued this groundbreaking work with mid-trimester amniocentesis at the New York Hospital.

He also studied the mechanism of labor and the prevention of premature labor. Dr. Fuchs discovered a treatment for the prevention of premature labor by ejecting the mother intravenously with a 10 percent solution of alcohol. His wife was the first to discover that alcohol prevents labor in rabbits by blocking the release of hormone oxytocin. He also opened a family planning clinic at the hospital.

He also introduced to the United States the laparoscope, which is used for viewing, or performing surgery on organs.

The Queen Margrethe of Denmark knighted him for his medical service in 1978. He died in February 1995 at the age of 76.

SCOPE AND CONTENTS NOTE:

The Fritz Fuchs Papers are organized into three series: General Correspondence (1960-1989) and Foreign Correspondence (1956-1988) are maintained in the order organized by Dr. Fuchs. A third miscellaneous file contains photographs and books organized by the Assistant Archivist.

Series I: General Correspondence, 1960-1989

This series, arranged alphabetically by subject, contains his domestic correspondence with his colleagues, pharmaceuticals companies, grant agencies, professional societies, and publishers from 1960-1989. Some of the files including Human Rights in Research Committee, March of Dimes, NIH, National Science Foundation, and Parke Davis contain protocols and other material about his landmark research projects in the areas of endocrinology of pregnancy, premature labor, and amniocentesis.

Series II: Foreign Correspondence, 1956-1988

This series, arranged alphabetically by subject, contains correspondence with foreign colleagues, publishing companies, pharmaceutical companies, and professional societies from 1956-1988. Many of the letters are written in a foreign language mostly Danish, Swedish, and German. These records can give insight to the OB/GYN field on the international level.

Series III: Reprints and Publications, 1960-1983

This series, arranged chronologically, contains reprints, papers, and books written by Dr. Fuchs and his wife.

BOX AND FOLDER LISTING

**MEDICAL CENTER ARCHIVES
OF
NEWYORK-PRESBYTERIAN/WEILL CORNELL**

**1300 York Avenue #34
New York, NY 10065**

**Finding Aid to the
THE FRITZ FUCHS, MD (1918-1995) PAPERS
(ADENDUM)**

**Dates of Papers:
1945-1993**

**65.5 Linear Inches
(12 Boxes)**

**Finding Aid Prepared By:
Elizabeth Shepard
Associate Archivist
August 2016**

PROVENANCE:

The Fuchs family donated these records in 06/11 and 8/3/2015 along with papers of his wife Anna Riis Fuchs. There was another collection donated by Dr. Fuchs so this collection is being processed as an addendum to that collection.

ADMINISTRATIVE/BIOGRAPHICAL NOTE:

See other finding aid.

SCOPE AND CONTENT NOTE:

This collection along with the original collection from Dr. Fuchs provides an excellent overview of Dr. Fuchs professional life at the medical center. There is not much documentation of his personal life. This collection has been divided into the following series: General Correspondence (1963-1993), Foreign Correspondence (1953-1992), Foreign Personnel Files (1969-1992), Professional Activities (1957-1986), Legal Cases (1980-1989), Speeches, Manuscripts and Reprints (1950-1989), and Miscellaneous (1945-1991).

CONDITIONS GOVERNING ACCESS:

The legal files are protected by HIPAA since they deal with his testimony as an expert witness for various patients.

LANGUAGE OF MATERIAL:

English.

PROCESSING NOTE:

This collection was processed as an addendum to the original collection donated by Dr. Fuchs. It was decided to catalog it as an addendum rather than incorporating the materials into the existing finding aid.

PREFERRED CITATION:

Item Name or Identification; Box #, Folder #; Fritz Fuchs, MD (1918-1995) Papers (Addendum), 1945-1993 (Medical Center Archives of New York-Presbyterian/Weill Cornell, New York, NY).

RELATED MATERIAL:

Fritz Fuchs, MD (1918-1995) Papers, 1956-1989

Anna Riis, MD (1926-2015) Papers, 1960-2007

BOX AND FOLDER LIST:

Series I: General Correspondence, 1963-1993

Miscellaneous general correspondence includes the Marcus Brothers and the review of the OB/GYN department.

Box 1: Series I, General Correspondence, 1963-1993

Folder:	Description:
1	Ayerst Lab, 1987
2	Cornell University Medical College, 1963-1964
