BIOGRAPHICAL NOTE

S. Frank Redo was born on December 28, 1920. He received a BS at Queens College in 1942 and MD degree at Cornell University Medical College in 1950.

He completed his internship and residency at the New York Hospital, 1950-1957. He was appointed Assistant Attending Surgeon in 1958; Associate Attending Surgeon in 1960; Surgeon in Charge of Pediatric Surgery in 1960 and Attending Surgeon in 1966.

At the Cornell University Medical College, he was appointed Assistant in Surgery in 1951; Instructor in Surgery in 1956; Clinical Assistant Professor of Surgery in 1958; Clinical Associate Professor of Surgery in 1963; Professor of Surgery in 1972; Clinical Associate Professor of Surgery in Pediatrics in 1972; Clinical Professor of Surgery in Pediatrics in 1978.

For the Medical Center he served as a Lewis Cass Ledyard Fellow in Cardiovascular Surgery in 1957-1959 and Associate Director of Surgeon's Assistant Program in 1975-ca. 1991.

During his tenure at the Cornell University Medical College and New York Hospital, he specialized in Pediatric Surgery. He worked on the research for the artificial heart and open-heart surgery. He also developed a Redo catheter for neonates; prosthesis for Gastrostomy; Prosthesis for Esophagus (dogs) and the use of Dextran Sulfate as an anti-ucclergenic agent.

He retired in 1995. He died on July 4, 2006.

NOTE OF PROVENANCE

Dr. Redo donated the material to the New York Weill Cornell Medical Center Archives in 1993-1995.

SCOPE AND CONTENTS NOTE:

The collection is organized into nine series: Minutes (1971-1973), General Correspondence (1952-1989), Surgeon's Assistant Program (1974-1991), Pediatric Surgical Cases and Notes (1960-1984), Heart Research (1951-1977), Heart Surgery Case Files, (1960's), Research Files (1956-1994), Reprints (1952-1993), Miscellaneous (n.d.) and Photographs (n.d.).

The minute series is arranged alphabetically by subject. It includes Cornell Medical Group, Executive Committee, 1971-1972; New York Cornell Medical Center, Dept. of Surgery, Staff Meetings, 1975-1977 and Operating Room Committee, 1972-1973.

The general correspondence series is arranged alphabetically by subject and contains general information about his practice and research at the Cornell University Medical College and New York Hospital, 1952-1989.

The Surgeon's Assistant Program is first arranged chronologically by year and then alphabetically by subject. It contains general information about the Surgeon's Assistant Program at New York Cornell Medical Center. The program was a twenty-six month program and the each year term ran 13 months from November thru December of the following year. Graduation was in December. **This series contains confidential student files and teacher's evaluations.**

The Pediatric Surgical Cases and Notes series is arranged alphabetically by subject. It contains admissions and discharge logs for general pediatric cases on N-7, 1968-1969, as well as for admissions for pediatric surgical cases, 1962-1980. It also includes operative notes, 1970-1980, patient charges, 1971-1984, pediatric monthly reports, 1960-1963, and pediatric surgical census, 1960-1962. Some of the files contained confidential patient case information.

The heart research files are arranged alphabetically by subject and contain notes on his research on the artificial heart, implantable cardiac substitute, open surgery, and cardiovascular surgery. It also contains information on the Cardiovascular Surgery Center at the New York Cornell Medical Center. Dr. Nakamura and Dr. Kivelitz research is also mentioned in the files. In addition, correspondence (1930's-1940's) between Charles Lindbergh and Dr. Paulel Flagg regarding Lindbergh's interest in heart research is included.

The heart surgery case files are arranged numerically by case file. **These are confidential heart patient records from the 1960's.**

The research files are arranged alphabetically by subject. They contained Dr. Redo research on the esophageal prosthesis (dogs), prosthesis for gastrostomy, dextran sulfate use as an anti-uclergenic agent, and gastrointestinal problems in children.

The reprint series is organized chronologically and contains articles on his heart, esophageal prosthesis, prosthesis for gastrostomy, dextran sulfate, and gastrointestinal research, 1952-1993.

The miscellaneous series is arranged alphabetically by subject. It contains biographical information on Dr. Redo, model of the artificial heart, intestinal decompression tube for neonates, steel disk for heart and lung oxygenator, pacemaker, Redo TPN Catheter for neonates and Telecor cardiac monitor.

The photographs series is arranged alphabetically by subject. It contains photographs, slides, and negatives related to his heart, esophageal prosthesis, and prosthesis for gastrostomy research. In addition, class photographs of the Surgeon's Assistant Program, 1980-1988.

BOX AND FOLDER LISTING

BOX 1: MINUTES, 1971-1973

Folder	Description
1	Cornell Medical Group, Executive Committee, 1971-1972
2	New York Cornell Medical Center, Dept. of Surgery, Staff Meetings, 1975-1977
3	Operating Room Committee, 1972-1973
